

PROJECT UPDATE

DeKalb Avenue Safety Improvements

April 29, 2022

Project Description

The Krog Street Tunnel, between Wylie Street to DeKalb Avenue, will soon be safer for everyone traveling through it. As part of the Krog Street Tunnel Lighting project, crews will install more than 40 mounted LED lights within the tunnel. The results will provide greater visibility for all users.

Crews have mobilized and work has begun on power service lines near Esther Peachy Lefevre Park, which required lawn excavation. The area will be reseeded and the lawn restored as part of the project.

The lighting will not disrupt the ongoing DeKalb Avenue Safety Improvement Project nearby.

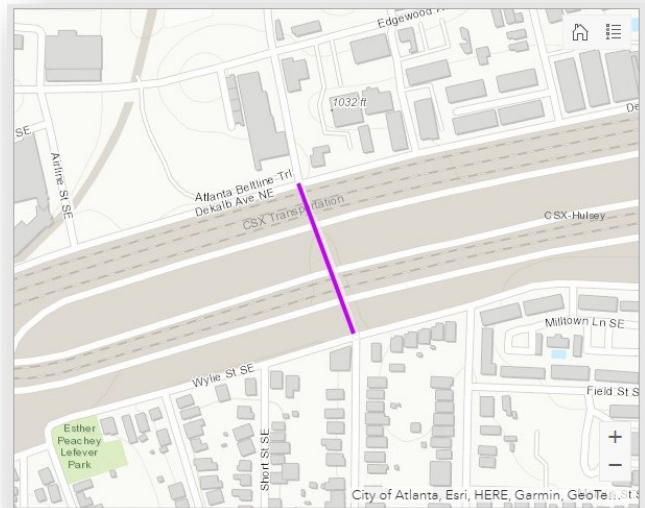

Location

Krog Street Tunnel, between DeKalb Avenue NE and Wylie Street SE

Schedule

Project construction is underway and is projected for completion in Fall 2022.

Other Details

- ⇒ Beginning Monday, May 2, partial lane closures will be in effect overnight on weekdays from 9:00 PM through 4:00 AM until the work is complete.
- ⇒ Work will begin on the eastern side of the tunnel. However, closures will alternate between lanes as work progresses. Traffic flow will be maintained throughout construction; however, the partial closures may cause traffic delays.
- ⇒ Target completion for the project is Fall 2022.
- ⇒ Details about this project are available on the ATLDOT website at: <https://atldot.atlantaga.gov/projects/krog-street-tunnel-lighting>.
- ⇒ Stay engaged with ATLDOT on our Twitter feed [@ATLDOT](#), [ATLDOT Facebook](#) page, Instagram channel [@ATL.DOT](#), and [Nextdoor](#) pages.
